

Robert B. Dix, Jr.

Vice President
Government Affairs & Critical Infrastructure Protection
Juniper Networks, Inc.

Bob Dix is the Vice President of Government Affairs & Critical Infrastructure Protection for Juniper Networks, a leading technology company delivering trusted high performance networking and security solutions to the global market. Mr. Dix has a distinguished career in both the public and private sector, and is widely recognized across industry and government as a policy expert in furthering government – industry partnerships to protect this nation’s critical infrastructure. He was named a “Top 100” award.

Mr. Dix has served in senior executive positions in the IT sector, as well as appointed and elected positions in the public sector. He served as the Executive Vice President for Government Affairs & Corporate Development at Citadel Security Software. At Juniper, Mr. Dix has been active in IT and Telecommunications industry leadership roles.

Among his various roles with Juniper, Mr. Dix serves on the Industry Executive Subcommittee (IES) of the President’s Industry Advisory Committee (NSTAC). In that role, he represents Juniper and its CEO, who is a Principal member appointed by the President. Mr. Dix represents Juniper as Chair of the Cyber Security Collaboration Working Group and on several task forces, including emergency preparedness communications. He served as Vice Chair of the Global Infrastructure Resiliency Task Force.

Mr. Dix has served as Chairman of the IT Sector Coordinating Council since April, 2008. He was elected to the inaugural Council and served previously as Secretary and Vice Chair.

Mr. Dix is active with the Partnership for Critical Infrastructure Security (PCIS), where he is the principal representative of Juniper on the Executive Committee in 2008. Dix has been active in facilitating improved integration of the private sector CI/KR into the National Exercise Program, testing our nation’s emergency preparedness, including the TOPOFF and Cyber Storm scenarios.

Mr. Dix serves in a leadership role with the Industry Advisory Council (IAC), where he was elected to the Executive Committee and Vice Chair of the Information Security & Privacy Shared Interest Group.

Dix also represents Juniper Networks on the National Security Task Force of the U. S. Chamber of Commerce and World Economic Forum of America (ITAA). He continues to represent Juniper and participate with the IT-ISAC and the Communications Security Establishment Canada on the Board of SAFECode.

During the 108th Congress, Mr. Dix served as the Staff Director for the House Government Reform Subcommittee on Intergovernmental Relations and the Census.

Previously Mr. Dix had served as a senior professional staff member to the House Oversight Subcommittee on the Environment.

During his career, Mr. Dix also was privileged to serve his community as a local government elected official for 12 years. He served on the Fairfax County Council in 1988 and re-elected in 1990. In 1991, Mr. Dix was elected to the Fairfax County Board of Supervisors as the Hunter Mill District representative. During that time, Mr. Dix also served in a number of regional, state, and national leadership roles, including a term as Chairman of the Metropolitan Washington Council of Governments. Mr. Dix was appointed by the Governor as Vice Chairman of the former Virginia Baseball Stadium Authority.

Mr. Dix has also been a community volunteer for his entire adult life, primarily focusing his attention on organizational leadership and character development. He has coached a variety of sports during his volunteer career including football, baseball, and basketball, and coached AAU girls’ basketball. In addition, he serves as President of the Virginia High School League Foundation Board.

for Youth for Tomorrow.
